Gem City Tool
Tim Hanselman
1425 N. Keowee Street
Dayton, Ohio 45404

Dear Tim:

Per your request, I researched our files on your account relative to our Special Waste Program. As you can see, we did a special waste survey in 1987 and 1989 and in both cases the waste we are hauling from Gem City Tool needs no special handling requirements.

If I can be of further assistance, do not hesitate to call.

Sincerely,

INDUSTRIAL WASTE DISPOSAL COMPANY

Dear Mr. Hanselman:

Enclosed are the forms we discussed on the telephone today. The "Customer Survey Checklist" is what I usually fill out while the customer tells me what they normally throw away. After my survey, I determine whether it is necessary for you to fill out the second form, "Miscellaneous Special Waste". This form can only be filled out by the customer. If any of your waste fits part "B" in the instructions it will be necessary for Gem City Tool to complete the form. For any of the classifications it is also necessary to know the size and quantity thrown away.

Please don't hesitate to call if you have any questions. I will be glad to assist you, at your convenience, in anyway I can.

Sincerely,

INDUSTRIAL WASTE DISPOSAL COMPANY, INC.

GENERATOR CERTIFICATION
ON
HAZARDOUS WASTE

The THE GEM CITY ENGINEERING CO. ("Generator") hereby certifies the following to Industrial Waste Disposal Co., Inc. ("IWD") with respect to any wastes it offers to IWD after October 15, 1980:

The Generator has timely filed, or will timely file, the notifications required at 40 C.F.R. Part 262 for any material or substance which is a "hazardous waste" under 40 C.F.R. Part 261.

The Generator will comply with all requirements of 40 C.F.R. Part 262 and the Ohio Environmental Protection Agency applicable to offering hazardous waste for transport after November 18, 1980.

The Generator, after November 18, 1980, will not offer to IWD for transport any wastes not accompanied by a manifest required at 40 C.F.R. Parts 262, 263, and 265 and any regulations of the Ohio Environmental Protection Agency unless such wastes are not "hazardous waste" or are entitled to the exclusions provided for generators at 40 C.F.R. §§261.5 and 261.6 or any regulation of the Ohio Environmental Protection Agency.

If, for any reason, the Generator finds that it is offering "hazardous waste" to IWD for transport in a manner which does not comply with the requirements of 40 C.F.R. Part 262 or any regulations of the Ohio Environmental Protection Agency, it will immediately cease such activity and notify IWD of the exact nature and quantity of the waste received by IWD.
